

**Machine Learning Project Titles**

<b>Sr.No</b>	<b>Project Title</b>	<b>Technology Use</b>
1.	Price Comparison System Project Python Django WebScraping(Source Code) (Best Offer)	Python/ Django
2.	Automatic Research paper generator using Machine learning	Python/ Django
3.	Age and gender Detection Using Machine learning	Python/ Django
4.	Face detection and Recognition System using Deep Learning	Python/ Django
5.	Face Mask Detection Using Neural Network	Python/ Django
6.	Bug Tracker Project Python Django	Python/ Django
7.	Chatbot Project - Flask	Python/ Flask
8.	Object Detection and Recognition using Machine Learning	Python/ Django
9.	Crop Recommendation System Using Python Django	Python/ Django
10.	Stock Market Prediction Using Machine Learning	Python/ Django
11.	Weather Forecasting Application with ML Prediction	Python/ Django
12.	Symptoms Based Human Disease Prediction System Using ML	Python/Django
13.	Voice Enable Email System	Python/Django
14.	Emotion Detection From Face Recognition Using ML	Python/ Django
15.	Automatic License Plate Recognition System Using ML	Python/ Django
16.	Covid 19 Patient Prediction System	Python/ Django
17.	Driver Drowsiness Detection System Python Django Deep Learning(	Python/Django
18.	Face Recognition Attendance System Python Django	Python/Django
19.	Fake News Detection Project Using Python Django Machine Learning	Python/Django
20.	Health Monitoring Management System Python Django	Python/Django
21.	IFSC Code Finder Project Python Django	Python/Django
22.	Heart Disease Prediction using ML Algorithm	Python
23.	Malnutrition Detection System Python Django	Python/Django

Sr.No	Project Title	Technology Use
24.	Online Bug Tracking System	Python/ Django
25.	Oral Cancer Prediction Python Django	Python/ Django
26.	Peer To Peer Learning Project	Python/ Django
27.	Smart Health Disease Prediction System (ML)	Python/ Django
28.	Thalassemia Prediction ML & Blood Bank Management System Python Django	Python/ Django
29.	Traffic Signal Detection System Python Django Deep Learning	Python/ Django
30.	Flower Recognition	Python
31.	Google Landmark Detection Model	Python
32.	Deep Detection	Python
33.	Fake Currency Detection	Python/ Django
34.	Color Recognition	Python/ Django
35.	Image Recognition	Python/Tensorflow
36.	Name Entity Recognition	Python/Django
37.	Human Activity Recognition Model	Python/ Flask
38.	Pneumonia Detection	Python
39.	Titanic Survival Prediction	Python/ Django
40.	Skin Cancer Classification	Python/Flask
41.	Dog and Cat Classification	Python/Django
42.	Fraud Detection Model	Python/Django
43.	Language Classification Model	Python
44.	Online Shopping Intention Analysis	Nodejs
45.	Amazon Bestselling Books Analysis	Python
46.	Restaurant Recommendation System	Python/Django
